Volunteer Role

Overview

This document provides an overview of the Queuing volunteer role, including expectations, skills required, and recommended training. Queuing volunteers assist the Field Manager and Head Referee with staging teams for upcoming matches.

Responsibility

- Line up (queue) teams for each match from the queue tables to the game field to help keep matches on schedule.
- Ensure robots are in order according to the Match List report and aligned with the correct game field.

Training & Preparation

- Read this Guide document and get familiar with how matches are run. It is helpful to attend a local event prior to volunteering if you are able.

On Event Day

Review: If there are practice matches, practice queuing. A short on-site review may be provided by the Field Manager as needed.

Supplies: Clipboard, pen or pencil, highlighter, Match List report.

Physical Activity

Queuing Process

Be ready to queue teams as soon as the Match List is distributed. As each match is completed and scored, the referee will signal for the field to be reset and the next teams to advance to the field. For the current match, robots should be on the correct field. For the next match, "on-deck" robots should be on the queue table. For future matches, robots should wait their turn to advance to the "on deck" queue table.
